OFFICIAL

LOST AND FOUND: SGS Security Services is the focal point for Lost and Found and is in possession of numerous items found on KSC. These items can be claimed upon proper identification by contacting SGS Security Investigations Office at 861-5149. Items not claimed after 90 days will be turned over to the KSC Property Disposal Officer. (TA-G)

GRAPHICS/PUBLICATIONS: Before you begin any work for publication, consult the JBOSC Graphics Department. According to the print shop, approximately three jobs per week have to be reworked because of problems with alignments, reductions, and postscript formats. By consulting with JBOSC Graphics first, you will eliminate wasted time and effort to rework your project. Graphics will ensure your artwork is produced efficiently and is suitable for reproduction. Graphics has electronic transfer capability, a proven method for first quality prints directly from the original, compared to low density reproductions from copied artwork. For information, call 867-3838. For your convenience, JBOSC Graphics has two additional offices located in the O&C Building, Room 1152, 867-7419; and, in the OSB Building, Room 6204, 861-3814. (TA-E1)

OCCUPATIONAL MEDICINE PATIENT SERVICES PROGRAMS: All employees are reminded that nonoccupational-related information obtained from medical treatments, physical examinations, Health Education Program screenings, and mental, emotional, and substance abuse counseling through the Employee Assistance Program is PRIVATE, STRICTLY CONFIDENTIAL, AND SUBJECT TO THE PRIVACY ACT. (TA-C2)

EMPLOYEE ASSISTANCE PROGRAM: All employees are reminded that the Employee Assistance Program offers free, confidential counseling to all Kennedy Space Center and Cape Canaveral Air Force Station employees. Appointments are necessary to ensure adequate time. This program is available Monday through Friday, 7:30 a.m. to 4:00 p.m. Appointments may be made by calling 867-7398. (TA-C2)

NUTRITION TIP FROM THE KSC FITNESS CENTERS-VITAMIN ESSENTIALS AS WE AGE: As we age, our dietary requirements change, and we're also more focused on the diseases and disorders that accompany aging — conditions that getting the right nutrients may help to prevent. What vitamins should you be getting to make the most of your health? And how should you be getting them — on your plate or in a handy supplement?

Osteoporosis, the bone-thinning disease that most commonly affects postmenopausal women, results from bones that have lost **calcium** and thickness. You can get your daily dose of calcium from milk and milk products like yogurt; fish like canned salmon or sardines; broccoli; and juices and cereals that are fortified with calcium. Weight bearing exercises also help to prevent bone loss.

As we get older, our ability to synthesize **vitamin D** in sunlight through our skin diminishes, therefore, our dependence on dietary sources of Vitamin D goes up. We either have to get it through our foods (liver and fish or fortified milk and cereals) or we have to get it through supplements.

Another vitamin that we tend to get less of as we age is **B-12**, which is naturally found in animal foods and proteins including meat, eggs, milk, fish, and poultry, as well as in fortified cereals. The B-12 vitamin is one of the important requirements for the maintenance of healthy central nervous system function brain and spinal cord.

Folate can play an important role in cancer prevention; the evidence is strongest for colorectal cancer. Many fortified grain products like pasta, bread, breakfast cereals, and rice contain folate, as do dark green leafy vegetables like spinach and citrus juices and fruits.

Vitamin E and vitamin C are both powerful antioxidants; studies have suggested that they may help protect against diseases of aging as varied as cancer, heart disease, Alzheimer's, and cataracts. We get most of our vitamin C from citrus fruits, tomatoes, and vegetables like peppers, broccoli, and asparagus. Vitamin E is found most commonly in nuts, seeds, and oils. You can boost your daily dosage of both with fortified cereals.

Found primarily in animal products like liver and eggs, **vitamin A** has a number of health-promoting functions particularly important as we get older: It plays an important role in vision, bone growth, reproduction, cell division, and helps to regulate the immune system.

To get the vitamins and other nutrients we need, food should always be first, and in a balanced diet that includes fruits and vegetables, whole-grain bread, and cereals — especially those that are enriched. Any decision to supplement ideally should be based on input from a healthcare professional.

HEALTH EDUCATION & WELLNESS PROGRAM HIGH BLOOD PRESSURE MONTH MAY 2004: High blood pressure is often called "the silent killer" because hypertensives have few, or often no symptoms. Millions have the disease, but are unaware of it. Blood pressure checks are available at all medical clinics and both KSC Fitness Centers during hours of operation. Additionally, there is an automated blood pressure machine in the MFF lobby (outside the cafeteria) available 24/7. (TA-C2)

Let's RECYCLE MORE, MORE, MORE: You asked for it, now we need your support! Starting May 1, 2004, KSC will begin a new recycling program! Progressive Recycling, Inc., of Cocoa will be KSC's contractor for paper and cardboard recycling. It is now time to give you an update on the recent changes happening to your recycling program.

Each employee should have a desktop recycling container of some type for their convenience. If not, please use the lids from the copier paper boxes. All blue box type containers were issued under KSC's past recycling contract with East Coast Paper Stock, Inc. These labeled containers must be turned over to the janitorial staff for pickup and final collection. KSC does not own any of the small blue containers, but we will provide them in the near future.

There was some discussion in the past about placement of recycle/trash cans in the corridors of all facilities on KSC. Last week the janitorial staff was informed to remove such containers and place them within working areas of these facilities. In order to continue a successful recycling program, please continue to empty your recyclable items in the blue recycle cans located within various offices throughout your facilities. If you should have questions about locations of these containers, please contact your janitorial staff in your facility.

Below is an expanded list of items that can now be placed in the office paper recycling bins for implementation of the new recycling program at KSC:

Paper Products — White, Coated, Colored, Drafting, Construction, Computer and Fax

Folders — Manila file and Colored file

Cards — Index and Business

All other items — Envelopes, Stapled and Paper Clipped material, NCR Carbonless Forms, Post-it Notes, Cash Register/Adding Machine Tape

Cardboard recycling bins will subsequently be added to KSC's recycling program after the office paper recycling is initiated. Below is an expanded list of items that can now be placed in the bins:

Cardboard, Newspaper, Magazines, Catalogs, Notepads, Spiral Bound Notebooks, Booklets and Brochures.

Please call Alice Smith 867-8454 with any questions about KSC's new recycling program. (TA-C3)

NUTRITION LECTURE SERIES: Please join the KSC Fitness Centers as we present the, "**Changing Weighs**" Nutrition Lecture Series! The sessions are all one hour long **in the O&C Mission Briefing Room (MBR).**
